*Fluid Flow - One source for
all your measurement, control
and filtration applications.*

- **Micro Filtration** - polymeric cartridge and porous metal designs
- **Filtration Systems** - chromatography, depth filtration, micro-filtration, reverse osmosis and ultra-filtration separation technologies; single use, backwash, blowback and regenerable filtration systems
- **Ball Valves** - on/off and characterized seat control valves
- **Automation Solutions** - pneumatic, electric and electro-hydraulic fail safe actuators; analog and digital positioners and limit switches
- **Valves** - Durco ball and high performance butterfly valves
- **Automation Solutions** - Automax pneumatic and electric actuators; analog and digital positioners and limit switches
- **Level Instruments** - switches, transmitters and controllers utilizing radar, magnetostrictive, RF capacitance, thermal dispersion, ultrasonic, vibrating and mechanical technologies
- **Flow Instruments** - switches and transmitters utilizing thermal dispersion and mechanical technologies
- **Magnetic Level Gages** - single and dual chamber indicators
- **Level Instruments** - level gage integrated switches and transmitters; guided wave radar, magnetostrictive and reed switch transmitter technologies
- **Control Valves** - globe style, rotary and all-PFTE construction
- **Regulators** - self-contained and pilot-operated pressure reducing and back pressure relief valves; industrial and hygienic designs
- **Regulators** - high capacity, self-contained and pilot-operated pressure reducing and back pressure relief valves; industrial and hi-purity designs
- **Vapor Control Systems** - tank blanketing and pilot-operated vent valves; conservation vents and flame arrestors
- **Level Gages** - tubular, flat glass and magnetic level indicators
- **Level Instruments** - boiler level trim; level gage integrated switches and transmitters; magnetostrictive and reed switch transmitter technologies
- **Sight Flow Indicators** - liquid and gas designs
- **Jet Pumps** - eductors designed for heating, mixing and pumping liquids and gases; solids transport
- **Flow Instruments** - Non-invasive, ultrasonic flowmeters for liquid, gas and thermal energy measurement
- **Analyzers** - concentration/density measurement for liquids
- **Pinch valves** - manual, pneumatic, and electric
- **Control valves, check valves, and slurry knife gate valves**
- **Expansion joints**
- **Pressure sensors**
- **Angle valves** - actuated on/off; 2 and 3 way designs
- **Control valves** - globe, sliding gate and segmented ball
- **Automation solutions** - pneumatic and electric actuators; analog and digital positioners

- Process Weigh Instruments - precision load cells, instruments and scales
- Web Tension Instruments

- Analyzers - Orion on-line process monitors for water analysis

- Fittings - instrument tube and pipe
- Valves - instrument ball, metering, needle, plug, toggle and check

- Signal Conditioners
- Power Monitors
- Surge Protectors

- Panel and Field Meters - LCD and LED indicators, alarms and annunciators
- PID Controllers

Temperature Measurement Systems

- RTD'S
- Thermocouplers
- Thermowells

- Wireless Transducers
- Signal Conditioners - Telmar electronic and pneumatic transmitters and alarms
- Power Supplies

- CIP & SIP Systems - Advanced Clean-in-Place and Sterilization-in-Place equipment, accessories, and solutions for the Life Sciences and Food & Beverage Industries

- Boiler Level Trim

- I/P Transducers
- Precision air regulators
- Volume boosters

- Solenoid Valves - 2-way, direct and pilot operated designs

- Flow Measurement - primary flow measurement devices including orifice plates/flanges, flow nozzles, venturis, flow tubes and metering runs

- Flow Instruments - variable area flow indicators, switches and transmitters; insertion turbine meters

- Flow Measurement - averaging pitot tubes and associated electronics

- Thermoplastic elastomer tubing products

- Fluoropolymer hoses and fittings

- High performance silicone tubing products

- Switches, indicators, transmitters, gauges and valves

Adding Value to Quality Products

Fluid Flow - One source for all your measurement, control and filtration applications.
